

TEST REPORT

(QUALITY ANALYSIS REPORT)

This is to certify that the following test results are obtained for the sample of

BIOMASS PELLETS

Report No.	KI/QA/2026-08/16	Report Date	16/08/2026
Sample Description	Biomass Pellets	Sample Condition	Sealed & Proper
Sampling By	Kailash Industries	Sample Quantity	As Received
Date of Sampling	16/08/2026	Sample Source	Production Sample
Date of Testing	16/08/2026		

TEST RESULTS				
S. No.	PARAMETER	RESULT	UNIT	TEST METHOD
1.	Gross Calorific Value (GCV)	5092.7	kcal/kg	IS 1350 (Part I)
2.	Moisture (as received)	4.082	%	IS 1350 (Part II)
3.	Ash (Average)	4.01	%	IS 1350 (Part I)

QUALITY STATEMENT	
The above biomass pellets sample shows a high calorific value with low moisture and controlled ash content, making it suitable for use in industrial boilers and biomass-based applications. The reported values are based on the sample tested.	

- Notes:**
- The results relate only to the sample tested.
 - This report shall not be reproduced except in full, without written approval of Kailash Industries.
 - Store in dry condition to maintain quality.
